

Food Vendors

A small number of sustainable food vendors are sought to help contribute to a green food court aimed at serving the more than 1,000 people expected on each day of the event. Food vendors must offer green choices, both in terms of preparation, content, minimization of heating and cooling, packaging and waste. Locally grown and/or processed food, organic, raw, vegetarian and vegan foods are preferred overall, although vendors offering locally grown free range animal products are welcome to inquire.

Please email or call us directly.

Vendor Registration forms may be mailed to:
