

Delina Agnosteva

OUTSTANDING ECONOMICS MAJOR

Our outstanding student in Economics for this year is Delina Agnosteva.

Delina came to Ramapo College from Provadiya, Bulgaria and began her academic studies as an International Studies Major. But as is the case with many Ramapo students, her academic interests evolved over time and she will now graduate with a dual major in Economics and International Business, as well as a Minor in Mathematics.

While excelling in the classroom, Delina has also found the time to be a wide variety of activities within the College. She has been a math tutor, a research assistant, treasurer of the Math club, treasurer of the Finance club, and an active participant in the International Business Club and the Model UN Club.

Delina is now headed to Drexel University where she has a full scholarship to pursue a PhD in Economics.
