Kenneth Walsh

Outstanding Student in Information Systems

The Information Systems faculty have awarded Kenneth Walsh the distinction of this year's Outstanding Student in Information Systems.

Ken is one of the most energetic students I've ever met. He always seems to be running from one place to another. That could be because he serves as the Captain of both the Ramapo College Varsity Men's Cross Country Team and the Men's Track and Field Team.

When he's not running there, he's running to a meeting of the Computer and Technology Club or the Ramapo Student Chapter of the Association of Computing Machinery … he serves as President of both organizations …. Or he is running down to Fort Monmouth where he has worked as an intern for the U.S. Department of Defense for several years designing, implementing and testing virtualization solutions for the U.S. Army.

I know for a fact that Ken received at least four offers of full time employment after graduation. He has chosen to accept an offer from AT&T Wireless where I'm sure he will be running things before too long.
