

**NAME: Laura Tanis**

**MAJOR: Visual Arts**

**BRIEF HIGHLIGHT:** *Warner Wada*

Graduating with a concentration in Photography and a minor in Biology, Laura has impressed her professors with her prodigious work ethic and creative/scholarly achievements. Film based large format photography is a slow, complex, 'mistake-prone' process; if an assignment requires 10 negatives and prints, she will probably submit 15 or more. In her art history courses she always has read more than assigned, is a role model for other students with her intellectual rigor, exercised with modesty and without pretension.

**FUTURE GOALS:** Upon graduation, Laura is moving to Kona, Hawaii, where she has been offered a job as an underwater videographer, having previously demonstrated her skills in an internship with the same company last year.
