CWAAC Minutes
Mar 23, 2022
In Attendance: Michael Unger (Chair), Chritina Connor, Tim Haase, Sharon Leathers and Rick Nunez (guest)
Not Present: Sarah Carberry, Susan Gaulden, Gurvinder Khaneja and Stacie Taranto

Agenda

Update on Assessment App & Discussion
Assessment Manual
School & Program Updates

Minutes

- Update on Assessment App & Discussion
    o The Chair reported on a meeting with Prof. Scott Frees about progress on the Assessment App
        ▪ Overview of app ideas and CWAAC continues to support App development.
        ▪ CWAAC remains enthusiastic about the app and shared all assessment program data (learning outcomes and goals, curriculum maps, assessment plans and assessment reports) with Prof. Scot Frees as the Assessment App developer.
        ▪ CWAAC provided feedback on posting assessment results publicly on the college and program websites. While programs can choose to post assessment results publicly, this should not be required. CWAAC supports making assessment data more readily accessible to appropriate stakeholders through the Assessment App.
        ▪ The Chair will relay CWAAC questions to the App developer Prof. Frees
            • To what degree will the App and its interface be customizable to suit the needs of different programs?
            • How will the App handle different result types (e.g., target met / not met, % of students meeting a target and results by rubrics)?
- Assessment Manual
    o The Chair presented a draft of the new assessment manual and received feedback regarding the assessment cycle, a quick-start guide for new faculty and creating new programs.
- School & Program Updates
    o CWAAC will have three new members in 2022-2023 for ASB, TAS, and HGS. The Chair and current CWAAC school representative will meet with new members for on-boarding.
