CONTENTS

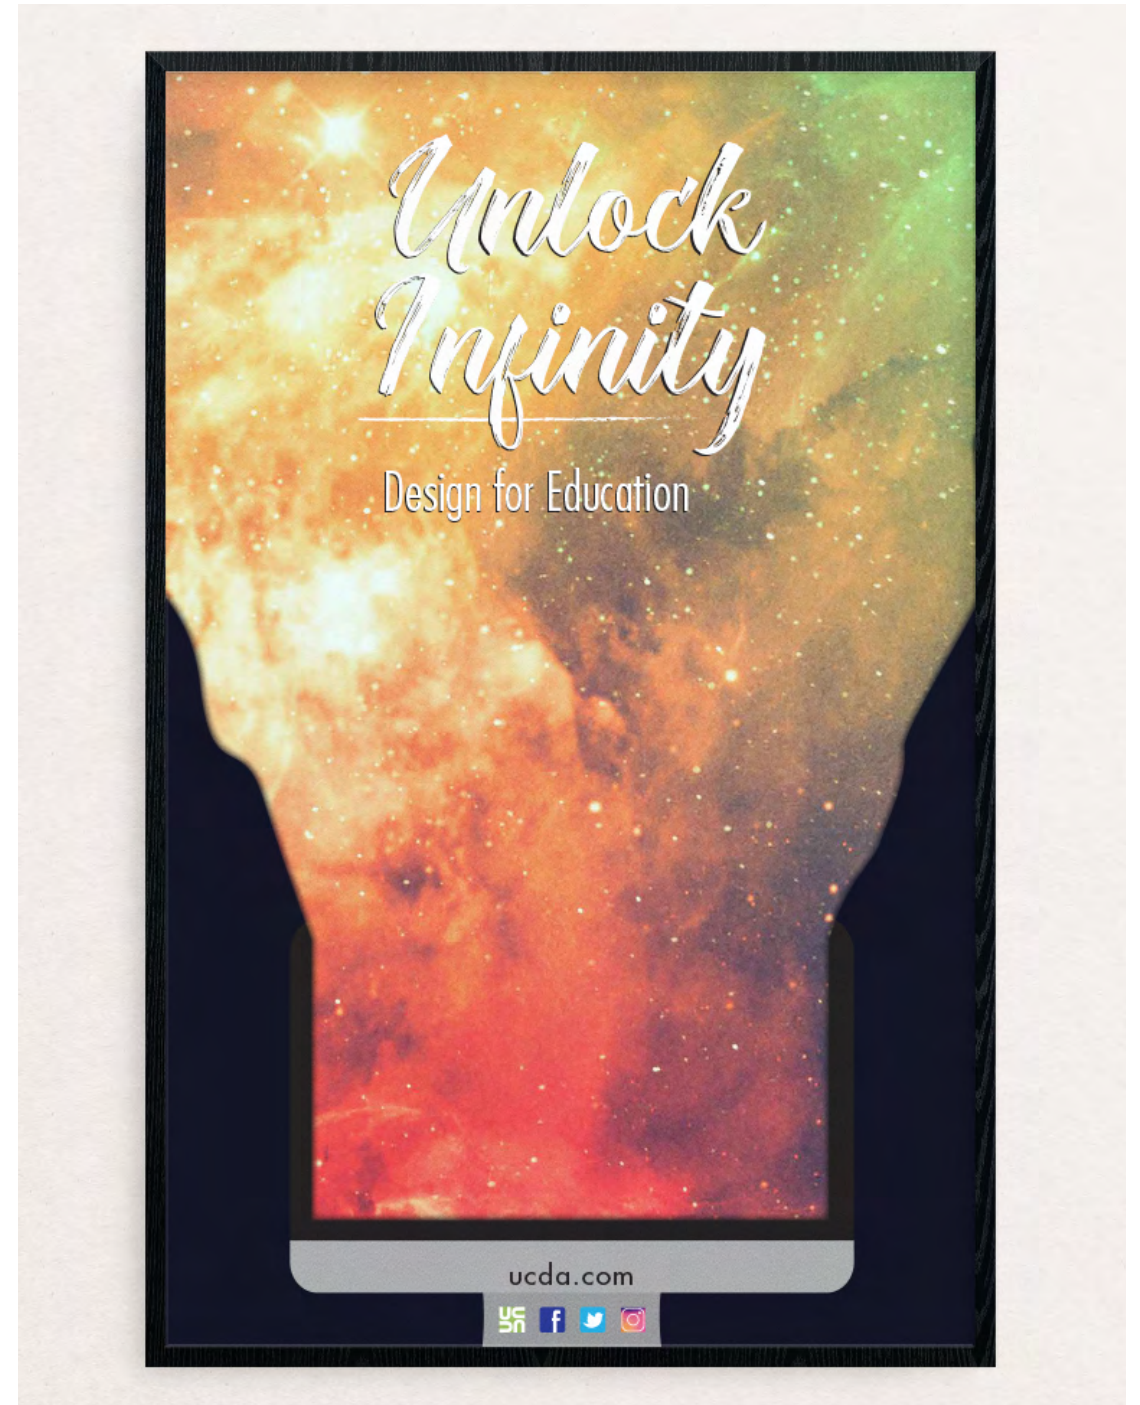

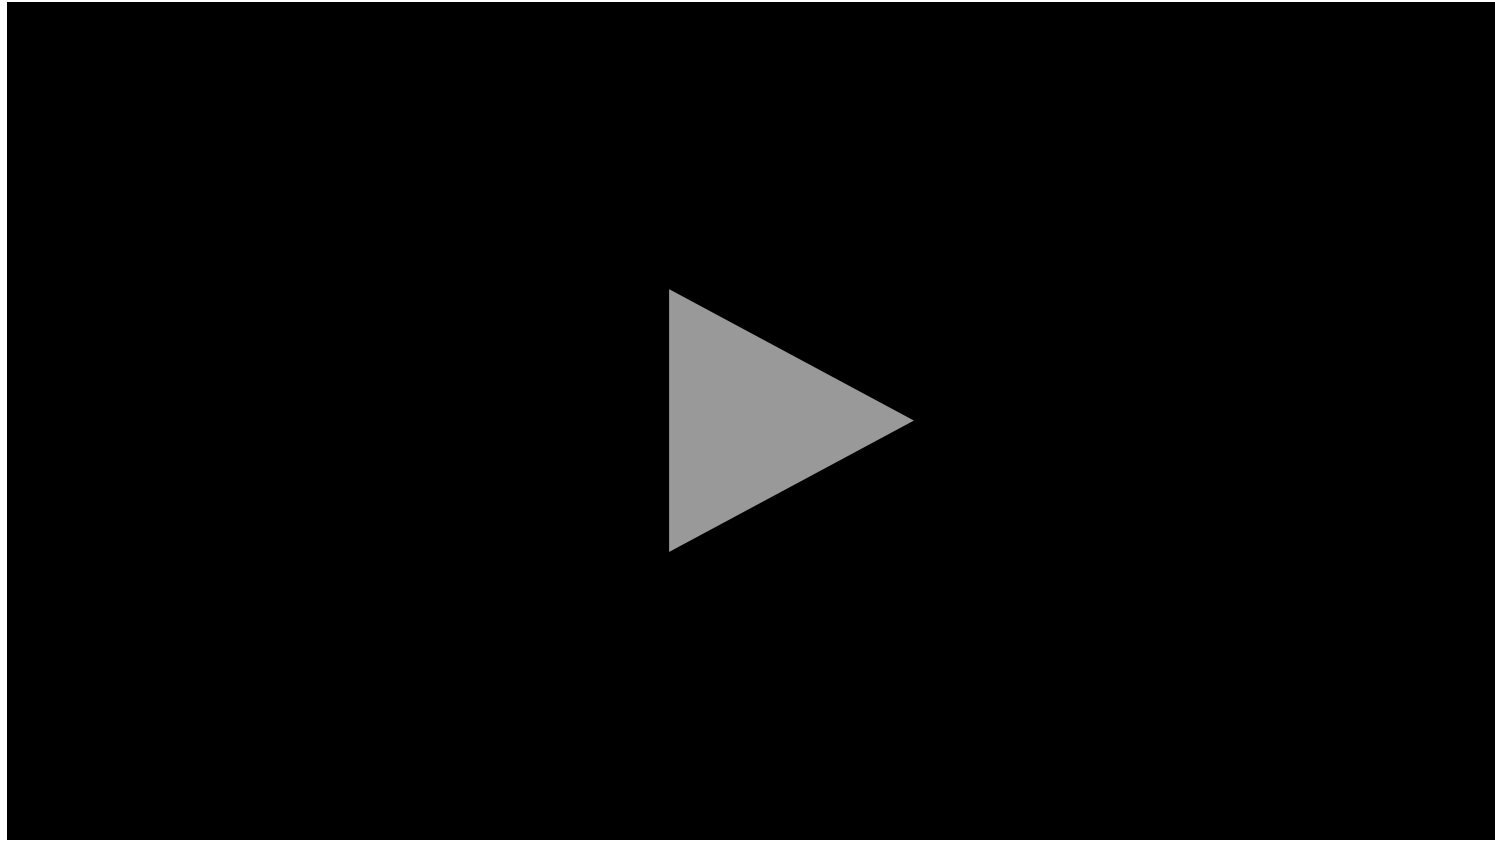

This project began as a poster to highlight a possible usage for the asterisk. Once that was done, I decided to create a small series of editorial illustrations that correspond with the meaning being highlighted.

CENSORSHIP EDITORIALS

A submission for the UCDA Design
for Education design contest to
create a poster to highlight the
importance of design to education.

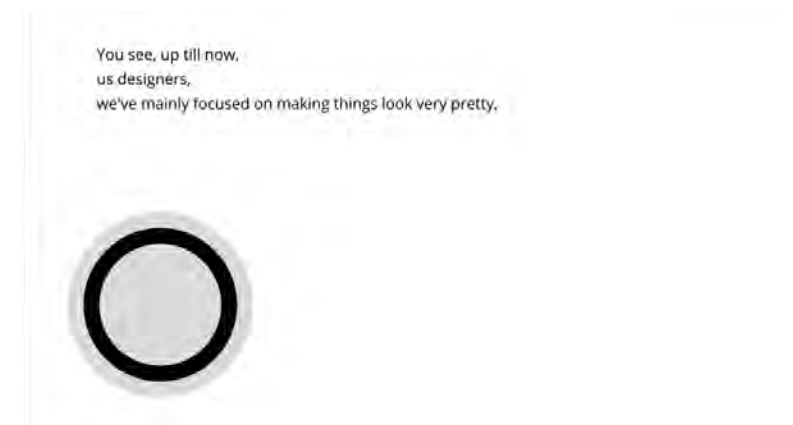

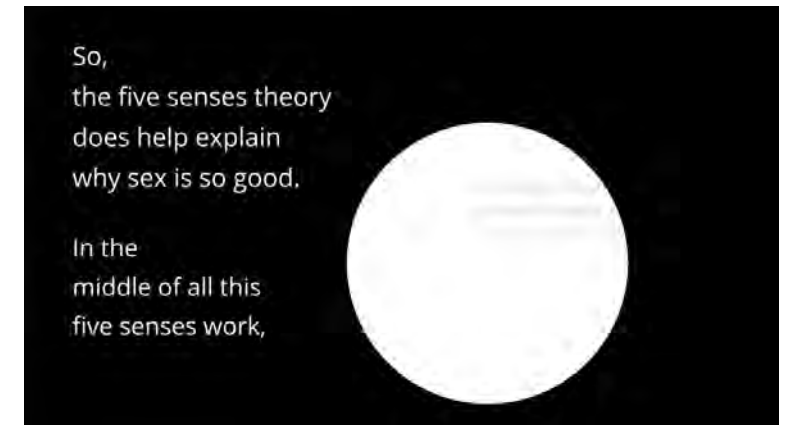

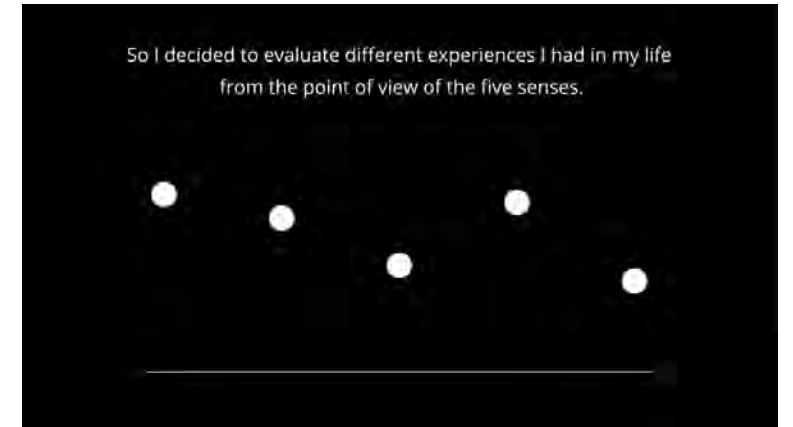

DESIGN FOR EDUCATION

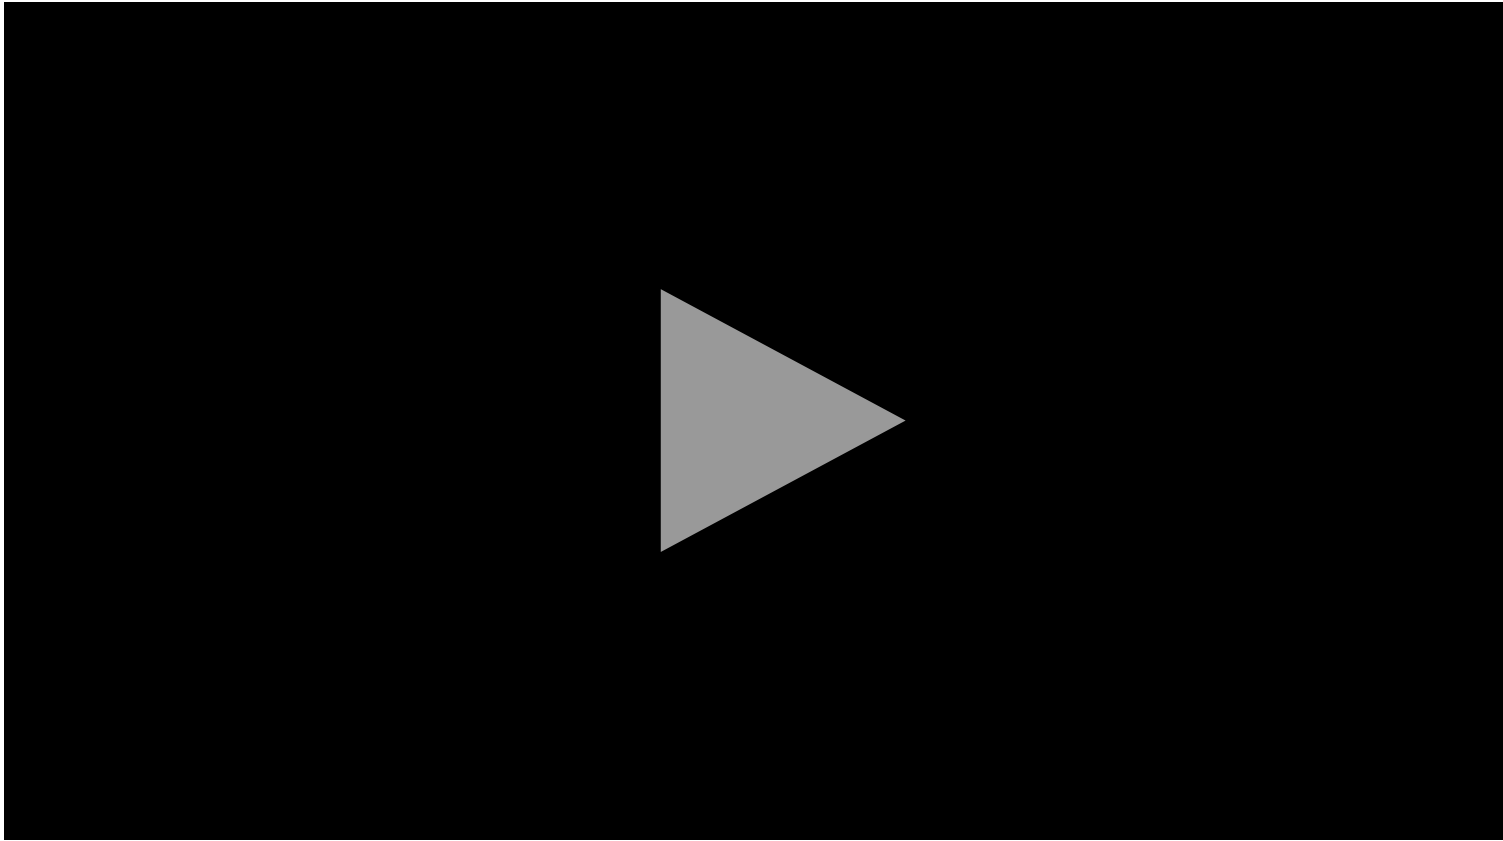

A motion graphic of just text set to the content of the TedTalk by Jinsop Lee talking about designing for the five senses.

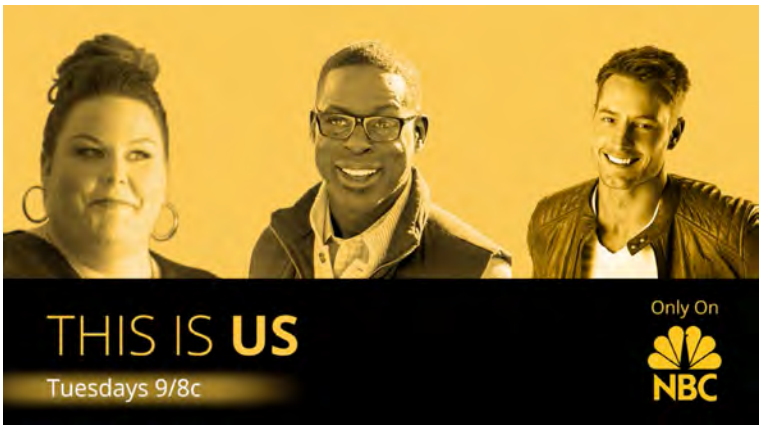

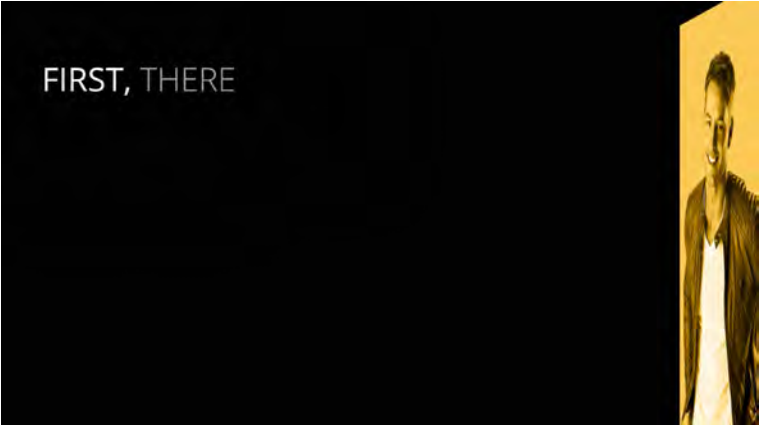

KINETIC TYPE

A short promotion for the show This Is US from NBC
created in After Effects.

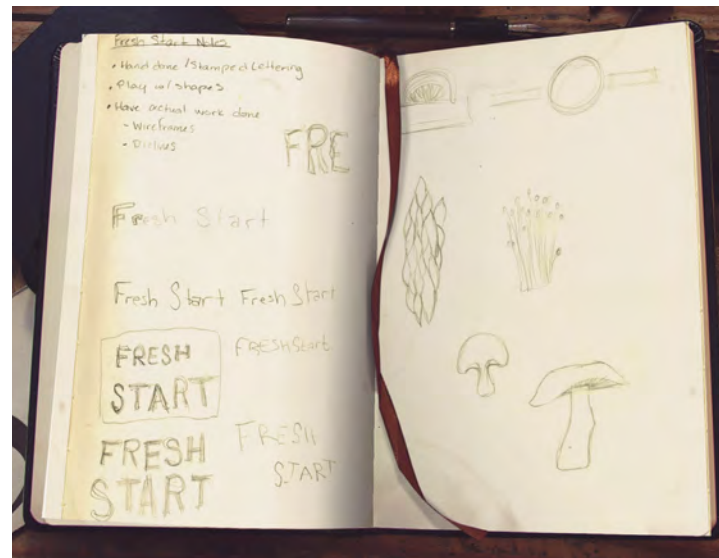

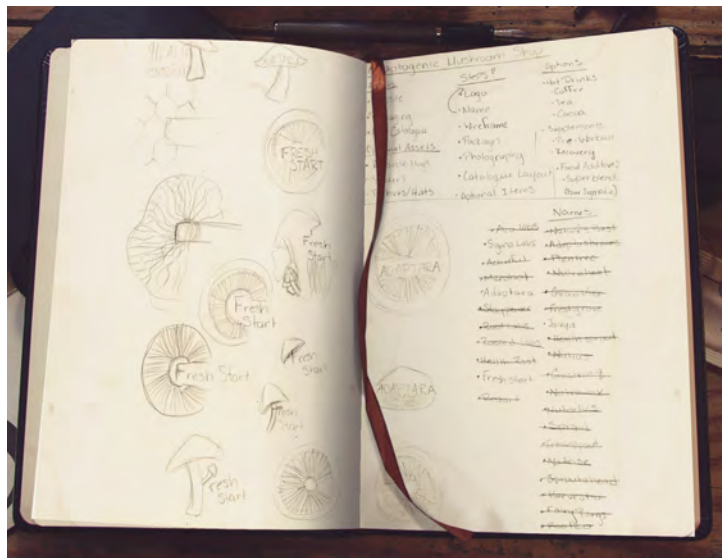

SHOW BUMPER

An online store created to sell beverages made from mushrooms that have various health benefits.

FRESH START

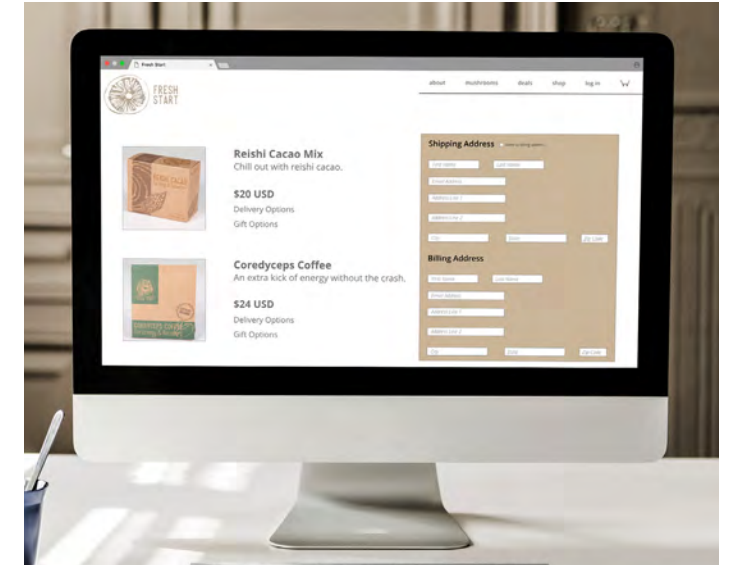

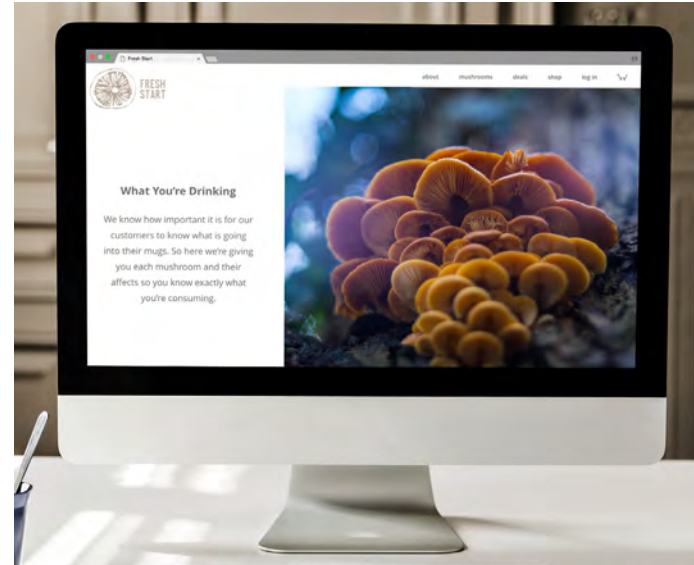

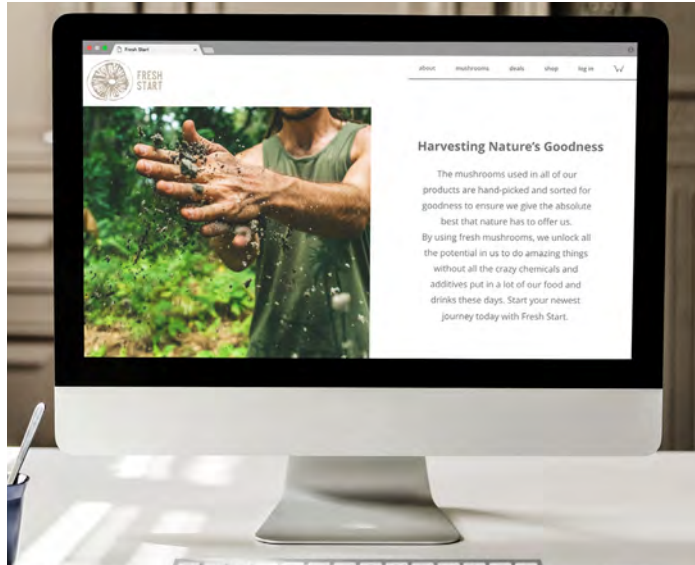

The overall feel for the products were informed by the look and feel of mushrooms and nature. As such all assets were hand drawn.

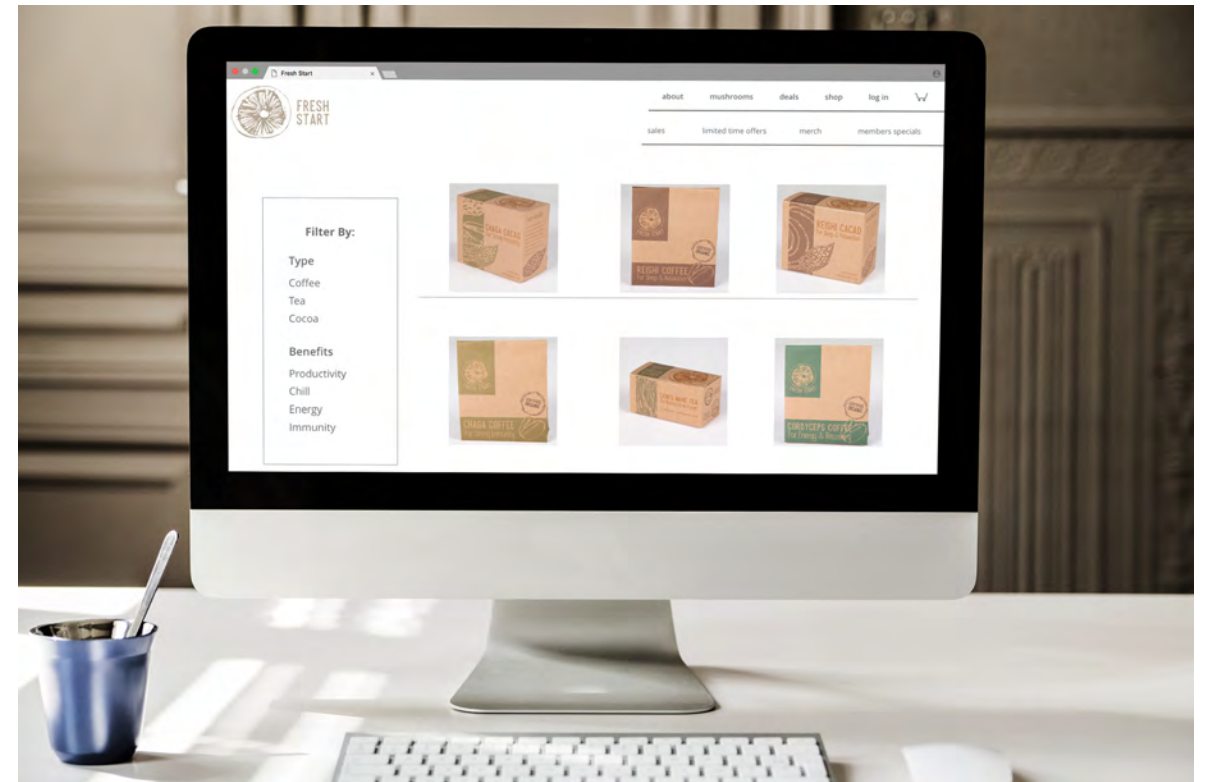

FRESH START

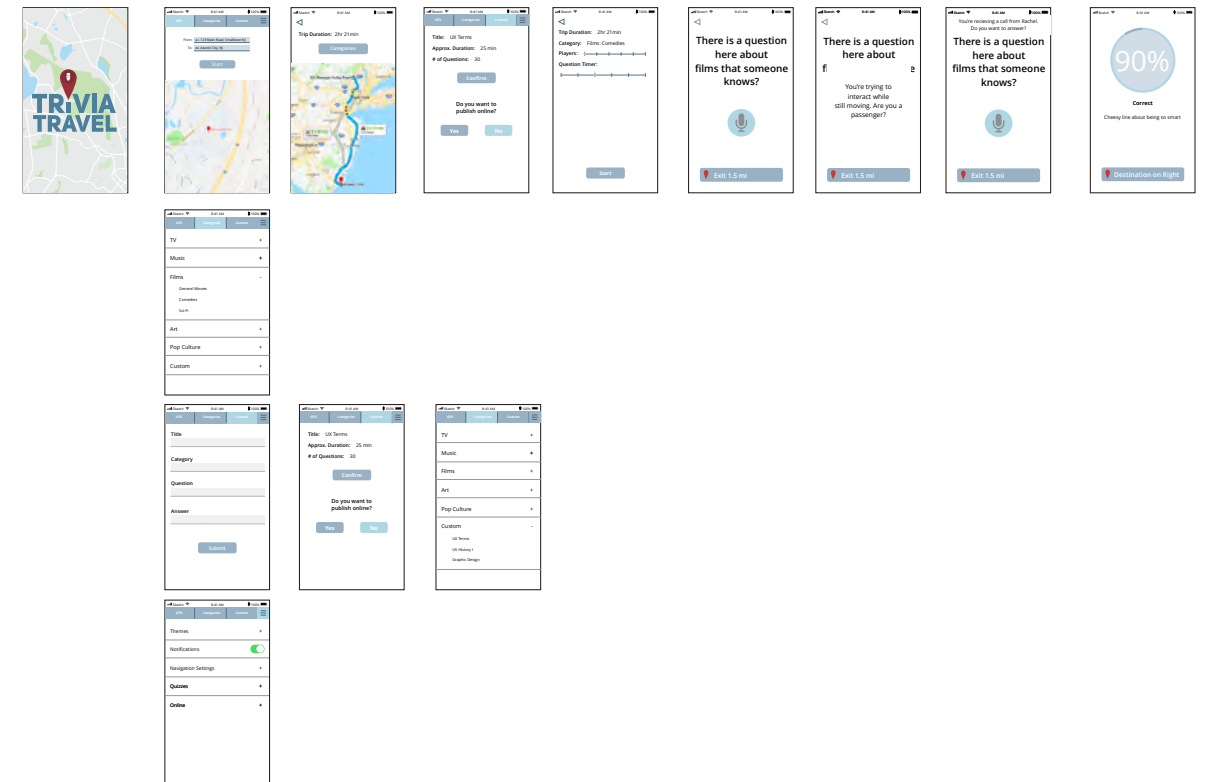

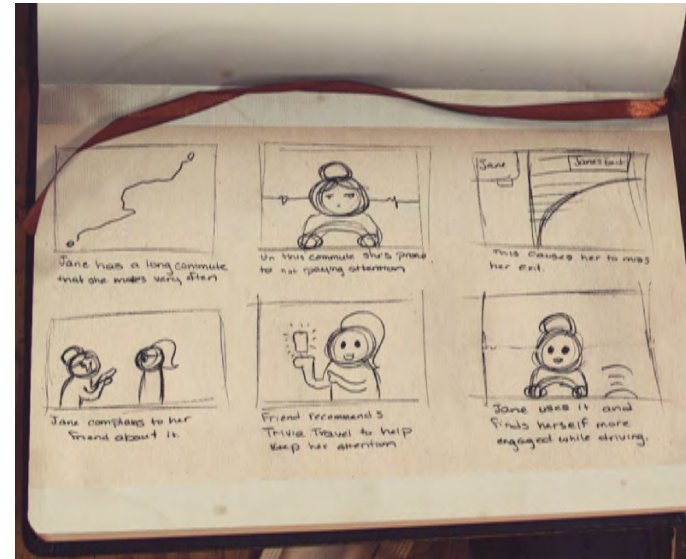

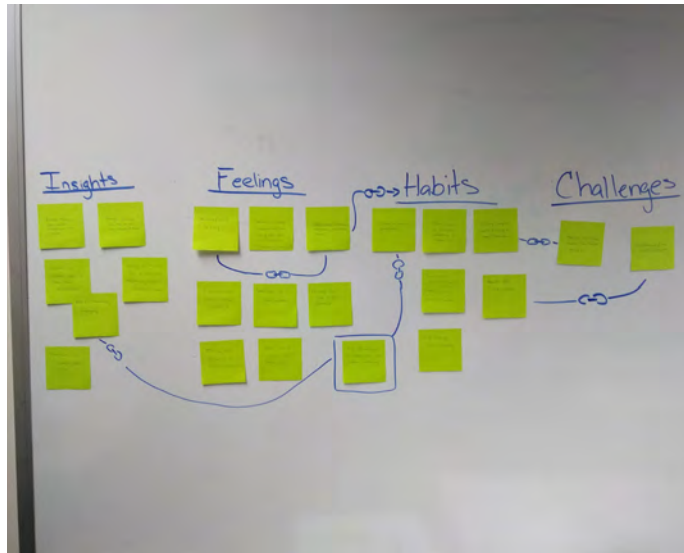

The overall feel for the products were informed by the look and feel of mushrooms and nature. As such all assets were hand drawn.

FRESH START

Went through the entire UXD process from research to prototyping to create a trivia app that you can play while driving.

PERSONAL STATEMENT

I'm a young Graphic Designer looking for the perfect place to learn and grow. My skillset ranges from physical design and assembly to digital design and execution. Design thinking for me is a huge part of my process, and I always include feedback in every step all the way to final execution. I view teamwork as an important aspect because the more ideas generated, the better the final product will be.

I always return to basics and keep those skills sharp while thinking forward and keeping an eye on the latest trends.
