INTRODUCTION

Ramapo College of New Jersey prides itself in preparing future leaders for a complex world through a rigorous liberal arts education. The Cahill Career Development Center is dedicated to empowering students with the knowledge, skills, and resources they need to thrive in today's dynamic job market. We committed to guiding them every step of the way, from the first year on campus to the first day on the job.

We understand that navigating the transition from academia to the professional world can be daunting. That's why we offer a wide range of services designed to equip students with the building blocks for post graduation success.

The Pathways Program: This nationally recognized program provides a structured framework for career exploration and development. Through foundational career assessments and reflective exercises, students learn to effectively communicate their skills and experiences through resumes, LinkedIn profiles, and impactful interview techniques. Successful completion of the Pathways Program, typically by the end of the sophomore year, prepares students for their first internships as rising juniors.

Employer Engagement: Building strong professional networks is crucial. We facilitate valuable connections between students and employers through career fairs, information sessions, and networking events. Students have the opportunity to engage with alumni and industry professionals, gain valuable insights into various career paths, and explore potential job opportunities.

Internships/Research: We emphasize the importance of real world experience which allow students to prototype careers, enhance their professional networks, and increase their competitiveness in the job market. Internships and research experience have been shown to lead to increased job offers, higher starting salaries, and a more robust professional network.

The Cahill Career Development Center is proud to share our annual report featuring the experiences of our students for 2023-24 and the post graduation outcomes for the Class of 2024.

PATHWAYS

Career Development Curriculum

THE PATHWAYS PROGRAM

The Pathways Program is a comprehensive career development initiative designed to foster self awareness, explore career options, and develop essential professional skills through three required courses:

Career Planning

Students identify potential career paths that match their interests, personality, and strengths.

Career Search Portfolio

Students leverage their activities, skills, and experiences to create a strong professional brand through their resume, LinkedIn profile, and cover letter.

Interview Skills

Students effectively communicate their career goals, academic background, skills, interests, and values to industry professionals during interviews.

CAREER CENTER TESTIMONIALS

“Always helpful and really helped me get ready for my interview with Marcum.”

K.S., Accounting

“... was very helpful and answered all of my questions even reassured me about an upcoming job interview and how to handle future job applications.”

A.G., Communication Arts

“... helped me structure my ideas for internships and coops perfectly and left me feeling positive about my search.”

J.J., History

“It’s awesome to be able to connect with a career advisor as an alumni. It was very helpful and I’ll be able to make career decisions based on what we discussed.”

J.P., Nursing

FIRST DESTINATION SURVEY

Post-graduation Outcomes

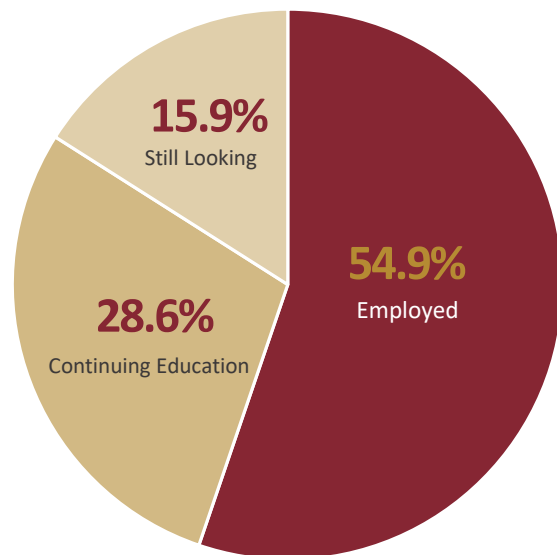

FIRST DESTINATION SURVEY

- National survey developed and managed by the National Association of Colleges and Employers
- Measures data on students' baccalaureate post graduation outcomes within six months of August 2023, January 2024, and June 2024 graduation
- Outcomes represent only the first destination for graduates and does not necessarily reflect current occupation or activity
- Data collection methods include: self reported student responses to the survey administered through Handshake, Cahill Career Development Center review of students' LinkedIn profiles, or administrative entries of information that students reported to the Cahill Career Development Center outside of the survey and prior to survey close
