

SECTION 00 31 32 – GEOTECHNICAL DATA

PART 1 - GENERAL

1.1 SECTION INCLUDES

- A. Geotechnical Report

1.2 GEOTECHNICAL DATA

- A. Attached is the geotechnical report prepared by SOR Consulting Engineers, LLC dated November 17, 2015.
- B. The report is to be utilized as representation of subsurface and soil characteristics for the entire project site, not only in the areas that were tested.
- C. The Contractor shall provide the necessary manpower, equipment, and engineering to perform all suggested operations as it relates to earthwork (excavations, boulder removal, shoring, and dewatering), below grade foundations, and slabs on grade.
- D. Should there be any conflicts between the geotechnical report and the other bid documents, the more stringent requirement and associated costs shall be included in the bid proposal.
