GECCo Minutes 03/06/19:

1. The “Criteria for GE” document was discussed and a few slight changes were made. GECCo voted to approve this document and to move it forward to FAEC and the Provost.

2. Mike spoke about Course Equivalency. Until we get a Vice provost, Mike has been tasked with approving new course equivalency within the GE. Transfer course equivalency has already been established in a document from Deans council (June 2017)

3. The outcome map was discussed again. It was determined that even small changes to outcomes (such as removing synonyms) can cause a lot of unexpected consequences. We also reviewed language from an earlier document that said changes to outcomes must be based on assessment data.

4. Yvette asked about a report template. CWAC currently uses a report template that was based on the GECCo plan template. We will adopt a similar template.
