

Nursing: RN/BSN*

Recommended Two-Year Upper-Level (Junior-Senior) Plan (Fall 2019)

The RN to BSN Program is designed for students who have completed an Associate of Science Degree or Diploma in Nursing and are licensed as a registered nurse. This program awards the Bachelor of Science in Nursing.

The recommended two-year plan is designed to provide a blueprint for students to complete their degrees within two years. These plans are the recommended sequences of courses. Students must meet with their Major Advisor to develop a more individualized plan to complete their degree. This plan assumes that students have already completed the first 2 years of study and that no developmental courses are required. If developmental courses are needed, students may have additional requirements to fulfill which are not listed in the plan.

NOTE: This recommended Two-Year Plan is applicable for students admitted into the major during the 2019-2020 academic year. This plan is the recommended sequence of courses, and may differ depending on a student’s transfer credits.

Third Year					
Fall Semester	HRS	✓	Spring Semester	HRS	✓
NURS 312-Nursing Informatics WI	4		NURS 330-Health Assessment Across Lifespan	4
