Four-Year Plan (Start Semester, Fall 2022)

The recommended four-year plan is designed to provide a blueprint for students to complete their degrees within four years. **Students must meet very early with their Major Advisor if they intend to take one or more Minors, or a second Major, to develop a more individualized plan to complete their degree.** This plan assumes that no developmental courses are required. If developmental courses are needed, students may have additional requirements to fulfill. which are not listed in this plan and may either cut the number of Minors you can take, or, in the case of a second Major, extend degree completion.

NOTE: This recommended Four-Year Plan is applicable to students admitted into the major during the 2022-2023 academic year.
