ABOUT COMPUTER SCIENCE
AT RAMAPO COLLEGE

Graduates have been employed in companies such as Google, Verizon, UPS, IBM and Morgan Stanley, or have gone on to graduate schools such as Columbia University, University of Pittsburgh, and University of Tennessee. Computer Science students have won prizes at programming contests and hackathons. Numerous clubs on campus cater to the interests of students, such as Computer Technology Club, hackRamapo and FemSTEM.

HOW DO I APPLY FOR THIS SCHOLARSHIP?

To be considered for the scholarship, submit your Ramapo College application and FAFSA forms early and send an email to Professor Amruth Kumar at amruth@ramapo.edu expressing interest in the scholarship.

If you qualify for the scholarship, you will be invited to submit a one-page essay explaining why you should be considered. Recipients will be selected and notified after March 1, 2018.

If you have questions about the scholarship, please write to Professor Amruth Kumar at amruth@ramapo.edu

The scholarship recipient may be able to secure state and federal aid and financial grants to pay for room and board.
Ramapo College of New Jersey offers full tuition scholarships for fall 2018, funded in part by a grant from the National Science Foundation.

**SCHOLARSHIP REQUIREMENTS**

- Must major in Computer Science;
- Must be in the top 10 percent of one’s high school class with SAT score of at least 1230 in Critical Reading and Mathematics;
- Must demonstrate financial need;
- Must be a U.S. citizen, U.S. national, permanent resident or alien admitted as refugee.

**WHAT A COMPUTER SCIENCE DEGREE ENTAILS**

The Computer Science program at Ramapo College is rigorous. The curriculum includes eight required courses, seven electives and four Math courses.

During their academic study, scholarship recipients will be provided with faculty advisement, math mentoring as needed, career mentoring and a host of other support services designed to ensure their success.

**ABOUT THE SCHOLARSHIP**

The scholarship will cover all tuition and fees. A scholar who continues to meet the requirements of the scholarship can receive up to five years of support. While on scholarship, the student will only be responsible for room and board if the student lives on campus.

Scholarship recipients will be evaluated every semester and must meet the following requirements to retain their scholarship:

- Remain a Computer Science major, working towards a degree in the major;
- Remain enrolled full-time (12 credits or more per semester);
- Maintain an average GPA of 3.0 or greater;
- Promptly discharge the requirements of the scholarship such as regularly meeting with faculty advisors, filling out data collection forms, etc.
