**Option I – Choose GoalMaker with Age Adjustment**

By selecting your risk tolerance, and confirming your expected retirement age below, your contributions will be automatically invested in a GoalMaker model portfolio that is based on your risk tolerance and years left until retirement. You also confirm your participation in GoalMaker's age adjustment feature, which adjusts your allocations over time based on your years left until retirement.

Select Your Risk Tolerance ☐ Conservative ☐ Moderate ☐ Aggressive

**Confirm Your Expected Retirement Age**

**Your  
Authorization**

I direct my employer to make payroll deductions as I have indicated. I understand that upon enrollment, if my Plan allows, I will have telephone and/or internet privileges to perform transactions via Prudential's Interactive Voice Response service and Online Retirement Center.

Please note that if you have selected GoalMaker and you have an existing account balance in the four prior investment options (DCP Money Market Fund, DCP Bond Fund, DCP Equity Fund, and DCP Small Cap Equity Fund), these assets will be automatically redirected to the GoalMaker model portfolio on the same business day that you enroll. Your account will automatically rebalance at the end of each quarter thereafter. The four prior investment options were "frozen" on January 1, 2006, to any additions of capital. Any assets transferred from these four investment options, including the rebalancing performed by GoalMaker, into any of the new investment options added to the Plan on January 2, 2006, may not be transferred back into these four prior investment options.
