VII. New Business
a. Guest: Rob Doster, Chief Information Officer, 2 Factor Authentication & Recent Cyber Scams
   i. Breach of security that occurred during winter break. Some students were taking advantage of during the break. Be careful with who you receive an email from and be attentive of fake emails!
   ii. 2FA Email - make sure all students comply
   iii. Considering banning some apps in order to ensure security such as Tik Tok.
      1. Chief Justice Victor Oluwagbemi - What were student’s reactions towards banning certain apps or Tik Tok on other campuses?
         a. Rob Doster - Some outrage towards this, but banning apps would only be through WIFI. Using banned apps would only be accessible through cellular data instead of Ramapo’s WIFI.
         b. VP Janea - info on student reactions found online:
            i. Students aren’t happy. “I didn’t think Texas public universities banning TikTok would have that much of an effect on me, but I’ve tried to open TikTok 3 times in the past 2 hours and she’s just… gone,” wrote Sidney Golden on Twitter. - [time.com](https://time.com)
            ii. Many students seem to be indifferent. With a single click on a smartphone, most students can easily turn off campus Wi-Fi and switch
to their personal cellular data to continue watching TikTok’s endless stream of content… Others agree that prohibiting TikTok will not curtail its use. While reactions have varied— in one Reddit thread, a user celebrated the ban at the University of Texas at Austin not because of cybersecurity risks but because “TikTok is turning people into zombies”— TikTok fans and haters alike recognize that the ease of getting around the bans renders them virtually meaningless” - insidehighered.com

iii. list of at least 20 (public) schools who have also banned TikTok - NBCnews

2. Concerns regarding student access, some students don’t have unlimited access or can’t pay for data plans, one member has a job where they make TikToks and rely on wifi usage.
   a. Rob Doster: There are ways to get free access to cellular plans. If you’re interested, reach out to me and/or Eddie Seavers and we’ll help you.

3. If you do not know who sends you an email and are concerned then you can send all the information to the help desk.

4. List of possible banned apps will be sent to all of Ramapo in order to ensure we are informed and wary of what to watch out for.

5. Senator Bibhu Bhatta: do you think Tik Tok poses a threat to the school network
   a. Rob Doster: it’s a question of what they’ll do with the information they gather. This hopefully encourages people to raise awareness.

6. Sarah Chavan-Jenke: When and if this goes through, if you are in financial constraints or have information where you can’t find a data plan, the US government is offering wireless plans. If you supply documentation, you can get completely free cellular service that includes data. If that’s something anyone is concerned about you can do that.
