

School of Theoretical and Applied Science (TAS)

Welcome from Dean Saiff

Welcome to Ramapo College of New Jersey, Roadrunners! I am Dr. Edward Saiff and I joined Ramapo in 1972 as a Professor of Biology. Our School of Theoretical and Applied Science has a rich history of preparing students for professional and academic careers in the sciences and mathematics. New research facilities support faculty and student collaboration that is synonymous with Ramapo College. Our small classes are hands-on and taught by faculty who know your name. Our faculty have spent decades mentoring our students via the TAS Research Honors curriculum in which students work formally with a faculty research sponsor to conduct and present work. I am thrilled to have you as a student in the School of Theoretical and Applied Science. Please feel free to email me at esaiff@ramapo.edu or stop by ASB-422 to say hello!

Alumni Spotlight

“Beginning freshman year, I started shadowing seniors in the TAS research honors program... I had faculty who have taken their time to help prepare me for internships, research programs, conferences, and applying for graduate school...From the research conducted as a part of the TAS research honors program, I presented at four undergraduate research symposiums and one national meeting and also presented an oral presentation at Ramapo’s Student Research Symposium.”

Jennifer is currently pursuing her Masters of Public Health at Icahn School of Medicine at Mount Sinai

Medical School.

Jennifer Trabucco '18
Biochemistry, Literature
