Subject: Math Club Mtg #3: Math Teacher Panel

Math Club Meeting #3: Math Teacher Education Panel

Dear Math Club Members,

On Tuesday, April 17 at 6:30 PM in room ASB-225, the Math Club will host a Math Teacher Panel. More specifically, we have invited a number of local math teachers at the high school and middle school level to come and speak on a variety of topics such as: how to apply for jobs, how to choose the right district, the tenure system, daily life as a teacher, etc. Our panel of student teachers, first-year teachers, and experienced teachers will also answer questions based on their own experiences.

We know that many of you are planning for a career in math education or at least considering the possibility. So this is a great opportunity for you to come and hear, from people with first-hand experience, what is necessary to get and do this job. We hope that you will join us for this exciting event. As always, pizza, chips and soda will be provided.

-

All are welcome at Math Club meetings. So bring a friend! For more information about Math Club, please visit our website at:
