Subject: Math Club Elections

Dear Math Club,

It is time to run elections for next year's Math Club officers and it must be done ASAP! The officer positions are: President, Vice President, Secretary, Publicist and Treasurer. The description of each officer's responsibilities are attached and awaiting your review (except I don't think the Publicist's description is in the attachment).

If interested in obtaining an officer position, please first send an email to me (jgillesp@ramapo.edu) showing your interest ASAP. Then be sure to come to the election meeting THIS Friday from 1-2pm in ASB225 (room to be confirmed). If you are currently an officer and would like to keep the position please let me know. If multiple people show interest in the position then we will hold an election (secret ballot) at the meeting this Friday (after each person running does an introduction).

I hope you consider running for a Math Club officer position or at least come to the meeting this Friday. I believe it will be very short, we just need to sort out the officers for the purpose of submitting a budget for next year.

Sincerely,
Professor Gillespie
