Appendix A: Teacher Education Matriculation Guidelines
Updated October 2019

● In order to officially matriculate in a teacher preparation program in the State of New Jersey, candidates must hold a **3.00 GPA minimum** and meet the **State’s basic skills requirement**.

● **March 1** is the deadline for **fall matriculation** and Clinical Practice. **October 1** is the deadline for **spring matriculation**.

*Two Ways to Meet the Basic Skills Requirement:*

1. Demonstrate a score on the SAT, ACT, or GRE at or above the cut score for the year in which the exam was taken (see cut scores below).

2. Pass a Commissioner-approved assessment of basic skills. Currently, the only approved assessment is the Praxis Core Academic Skills for Educators exam (see cut scores below).

*The New Jersey Department of Education will accept the highest score on each test section, regardless of test date.*

**SAT**
- If taken before 4/1/1995: Math 520, Reading 480
- If taken between 4/1/1995 to 2/28/2016: Math 540, Reading 560
- If taken on or after 3/1/2016: Math 570, Evidence-Based Reading and Writing 610 or Reading Section 30

**ACT**
- If taken before 8/28/1989: Math 23, English 20
- If taken on or after 8/28/1989: Math 23, English 23

**GRE**
- If taken before 8/1/2011: Quantitative 720, Verbal 530
- If taken on or after 8/1/2011: Quantitative 156, Verbal 155

Total Credits Required: 128 credits; GPA Required: 3.0

*Ideally, students should be fully admitted into the program **by the end of their first year at Ramapo**. Transfer students should be admitted before registration date of their first semester on campus. Students should be directed early to the TE program for admissions requirements.
**Students must be fully admitted into the TE program before registering for EDUC 222. It is recommended that EDUC 211, EDUC 222, EDUC 346 and EDUC 360 be taken in different semesters as each will require clinical experience hours in schools.**

**Please Note:** Required clinical experience hours typically occur outside of your regular class time.

**CE1:** EDUC 211 - 22 hours of clinical experience required in an urban public school setting.

**CE2:** EDUC 222 - 20 hours of clinical experience required in a public school setting. Must be admitted into the TE Program by preregistration semester prior.

**CE3:** 60 hours of clinical experience required in a public school setting. New TB test and possession of a valid substitute teacher license required at time of preregistration semester prior.

**CE4:** 20 hours of clinical experience required in a public school setting. New TB test and possession of a valid substitute teacher license required at time of preregistration semester prior.

***New regulations will require students to have either 6 credits of Special Education, or the equivalent, to be eligible for certification upon completion of the TE Program. Ramapo College will fulfill this requirement by continuing to require EDUC 360, a 4 credit course, and will fulfill the remaining 2 credit equivalent by requiring students to take EDUC 301.***

***NJDOE regulations require students to have either 6 credits of Special Education, or the equivalent, to be eligible for certification upon completion of the TE Program. Ramapo College will fulfill this requirement by continuing to require EDUC 360, a 4 credit course, and will fulfill the remaining 2 credit equivalent by requiring students to take the corequisite course EDUC 301.***

****Only offered fall semester. These four courses are co-requisites and must be taken the semester prior to Clinical Practice Capstone.

*****State mandates, as of Fall 2018, will require one full year of Clinical Practice (CP). At Ramapo, that will be done on a Fall-Spring model. In the first semester, students must complete 180 hours of Clinical Practice requirements; in the spring they must complete 525 hours during Clinical Practice Capstone (Student Teaching). CP 1, 2, 3, and 4 will each require 45 hours, in addition to regular class time, in local K-12 schools.

This major has enough space built-in that students could elect to complete a middle school endorsement within the 4 years to graduation and certification. Students must have 15 credits (4 Ramapo courses) in a particular content area (language arts, science, social studies, or math), PSYC 347 (Adolescent Psychology, included in 4-year plan), 2 on-campus non-credit seminars, and passage of the appropriate middle school content Praxis examination to earn a middle school endorsement. Interested students should seek guidance from Teacher Education Program staff.

PLEASE NOTE: Transportation to and from clinical experience and Clinical Practice placements is the responsibility of individual students. Please plan accordingly. If transportation is or may be an issue, please visit the TE program offices BEFORE you register for a course that requires a K-12/off-campus school placement.

ENSC 103 Introduction to Environmental Science
ENST 215 Environmental History
PHYS 221 Environmental Physics
GEOL 333 Environmental Geology or GEOL 328 Paleontology, Paleoeocology and Paleoenviroments (One of these two courses is required; you may take the other as one of the electives you meet)
GEOL 327 Geology of New Jersey
ENSC 225 GIS for Environmental Science or ENST 314 Geographic Information Systems
GEOG 303 Water Resources
(Please note that you need to work closely with an advisor because many of the above courses have prerequisites)

Required Praxis Exams:
Earth Science: Content Knowledge (5571)
Minimum passing score: 153

General Science: Content Knowledge (5435)
Minimum passing score: 152

**English**
Major: Literature

A minimum of 30 credit hours (with at least 12 of those credits at the 300/400 level) is required in literature. Ramapo students complete the requirements by majoring in Literature and including the following courses in their major:

Appendix F: Elementary Education Major + MA Special Education (4+1) Program Requirements

4+1 Elementary Education BS and Special Education MA
Recommended Four-Year Plan (Spring 2020)

3 MASE courses may count toward undergraduate credit and major. These courses do not change the credit count for the undergraduate program.

Upon admission to Ramapo College, candidates will be provisionally accepted to the teacher education 4+1 program. Each student will meet with an advisor to confirm their academic plan. The student’s advisor will need to provide permission prior to registering for their graduate coursework during the undergraduate degree. All undergraduate teacher education requirements are to be completed prior to full matriculation in the MA program.

*Ideally, students should be fully admitted into the program by the end of their first year at Ramapo. Transfer students should be admitted before registration date of their first semester on campus. Students should be directed early to the TE program for admissions requirements.

**Students must be fully admitted into the TE program before registering for EDUC 222. It is recommended that EDUC 211, EDUC 222, EDUC 346 and EDUC 360 be taken in different semesters as each will require clinical experience hours in schools.

Please Note: Required clinical experience hours typically occur outside of your regular class time.  
**CE1:** EDUC 211- 22 hours of clinical experience required in an urban public school setting.  
**CE2:** EDUC 222- 20 hours of clinical experience required in a public school setting.  Must be admitted into the TE Program by preregistration semester prior.  
**CE3:** 60 hours of clinical experience required in a public school setting.  New TB test and possession of a valid substitute teacher license required at time of preregistration semester prior.  
**CE4:** 20 hours of clinical experience required in a public school setting.  New TB test and possession of a valid substitute teacher license required at time of preregistration semester prior.

***New regulations will require students to have either 6 credits of Special Education, or the equivalent, to be eligible for certification upon completion of the TE Program. Ramapo College will fulfill this requirement by continuing to require EDUC 360, a 4 credit course, and will fulfill the remaining 2 credit equivalent by requiring students to take EDUC 395.

For students who do not take EDUC 301 in addition to EDUC 360, they must complete a minimum of 60 hours of fieldwork while enrolled in EDUC 360. These hours will satisfy the requirement of both the mandated Special Education fieldwork experience and the requirement for 6 credits of Special Education.
****Only offered fall semester. These four courses are co-requisites and must be taken the semester prior to Clinical Practice Capstone.

*****State mandates, as of Fall 2018, will require one full year of Clinical Practice (CP). At Ramapo, that will be done on a Fall-Spring model. In the first semester, students must complete 180 hours of Clinical Practice requirements; in the spring they must complete 525 hours during Clinical Practice Capstone (student teaching.). CP 1, 2, 3, and 4 will each require 45 hours, in addition to regular class time, in local K-12 schools.

This major has enough space built-in that students could elect to complete a middle school endorsement within the 4 years to graduation and certification. Students must have 15 credits (4 Ramapo courses) in a particular content area (language arts, science, social studies, or math), PSCY 347 (Adolescent Psychology, included in 4-year plan), 2 on-campus non-credit seminars, and passage of the appropriate middle school content Praxis examination to earn a middle school endorsement. Interested students should seek guidance from Teacher Education Program staff.

PLEASE NOTE: Transportation to and from clinical experience and Clinical Practice placements is the responsibility of individual students. Please plan accordingly. If transportation is or may be an issue, please visit the TE program offices BEFORE you register for a course that requires a K-12/off-campus school placement.

Please Note: All Foundational Courses must be completed prior to taking any Professional Education Courses.

*22 hours of clinical experience required in a public school setting.

**20 hours of clinical experience required in a public school setting. Must be admitted into the TE Program by preregistration semester prior.

***60 hours of clinical experience required in a public school setting. New TB test and possession of a valid substitute teacher license required.
***170 hours of Clinical Practice required in a public school setting. Possession of a valid substitute teacher license required.

****Course is usually taught in a public school setting/requires 10 hours of Clinical Practice. Must take and pass appropriate Praxis II by March 1 prior to Clinical Practice.

Please Note: Transportation to and from clinical experience and Clinical Practice placements is the responsibility of individual students. Please plan accordingly. If transportation is or may be an issue, please visit the TE program offices BEFORE you register for a course that requires fieldwork.

Appendix I: Teacher Candidate Professional Dispositions Survey

Teacher Candidate’s Name ________________________________________________

Completer’s Name _______________________________________________________

Completer’s Role (check one): □ Course Instructor □ Cooperating Teacher □ Teacher Candidate

Requirement For: EDUC ___________________ (Please fill in with course number and section.)

**Definition:** Behaviors can reveal dispositions essential for effective teaching. Education accrediting bodies and teacher educators characterize dispositions as professional attitudes, values, and beliefs teacher candidates reveal through verbal and non-verbal behavior as they work with students, families, colleagues, and the wider community. Positive behaviors can support the professional growth of teachers and student learning and development.

**Instructions:** Reflect on the teacher candidate’s professional behaviors in each of the five categories and rate their performance to date according to the scale below. In each comment box, provide specific instances and examples in which the teacher candidate exhibited the behavior and criteria. Complete category six only when there is a dispositional concern. Please sign and date the bottom of the last page of the form at the time of completion/submission.

1. Demonstrates listening by: making eye contact with speaker, attentive facial and body language and/or gestures, and/or pertinent questions/comments for the speaker

2. Expresses ideas using clear oral language that is reasonably free from distracting errors interfering with communication

3. Writes clear, well-organized, reader-based prose that is reasonably free from distracting errors interfering with communication

4. Uses appropriate tone and language in speaking and writing

**Not Observed:** If the teacher candidate does not have the opportunity to demonstrate the target behavior, check N/O.

Observation and Conference Report

Overview

The Observation and Conference Report is a performance-based, formative assessment instrument used to provide feedback to teacher candidates (also referred to as clinical interns) on observed lessons. The Observation and Conference Report (OCR) is used by both clinical supervisors and cooperating teachers during Clinical Practice I and Clinical Practice II. It is closely aligned with the Clinical Competency Inventory (CCI) evaluation instrument and will help guide the development of the teacher candidate throughout Clinical Practice.

During Clinical Practice I, the clinical supervisor will observe the clinical intern teach three (3) separate lessons (1 informal observation and 2 formal observations) and conduct post-observation conferences for each, as well as complete the OCR after each of the two (2) formally observed lessons. The cooperating teacher will complete one (1) OCR after one (1) formal observation and post-observation conference. This should be a co-observation with the supervisor, if possible.

During Clinical Practice II, the clinical supervisor will formally observe the clinical intern teach six (6) separate lessons and conduct post-observation conferences for each, as well as complete the OCR for each of the six (6) formal lessons/conferences. The cooperating teacher will complete one (1) OCR after one (1) formal observation and post-observation conference. This should be a co-observation with the supervisor, if possible.

The teacher candidate must be given a score (or marked as “Not Observed”) for each indicator. Please use the “Additional Comments” section for each indicator to provide support and feedback for the candidate, specifically if issuing ratings of a “1 - Emergent” or “4 - Advanced Proficient.” There are also opportunities at the end of the evaluation to document overall strengths, areas for improvement, and opportunities for reflection and growth.

All clinical supervisors and cooperating teachers must be trained before using the OCR. In-person and/or virtual training is provided at Clinical Practice Orientation at the start of the Clinical Practice internship. Online training videos are available for those who cannot attend orientation.
Scores and ratings

The following rating scale will be used to score each clinical intern:

4  **Advanced Proficient** (Exemplary Practice): The clinical intern shows exemplary practice in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all learners.
*Recommended point value: 3.5 - 4.0.*

3  **Proficient** (Basic Competence): The clinical intern shows basic competence in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all learners.
*Recommended point value: 2.75 - 3.4.*

2  **Novice** (Limited Competence): The clinical intern continues to need assistance in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all learners.
*Recommended point value: 1.5 - 2.74.*

1  **Emergent** (Exhibits Difficulty): The clinical intern exhibits difficulty in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all learners.
*Recommended point value: 0 - 1.4.*

**N/O - Not Observed:** If you did not observe a specific indicator in the classroom, please obtain additional evidence from the clinical intern demonstrating competency in that area. If you have a question or reservation, please insert a comment explaining your concerns. If you are observing a K-3 classroom, obtain approval to skip certain competencies and leave them blank.

☐ Proficient: 2.75 - 3.40
☐ Novice: 1.50 - 2.74
☐ Emergent: 0 - 1.40

Please indicate the overall (average) score the intern achieved: ______________________

Scoring Instructions: Add up the total points earned for each indicator and divide that number by the total amount of indicators scored. For example, if the intern earned “3s” across all 11 indicators, the total points earned is 33, which is then divided by 11 indicators. This equals an overall score of 3.0.

**Instructions:** Please indicate the score earned by the intern for each of the following eleven criteria by typing an “X” to the left of the numerical score (4, 3, 2, 1 or N/O) or circling/highlighting the appropriate numerical score and corresponding performance level descriptor. For very low (1 - Emergent) or very high (4 - Advanced Proficient) ratings, you must type or write comments in the spaces designated “Additional Comments” below each indicator. Overall/general feedback should be provided at the end of the report in the designated area. Thank you!

1. **Learner Development**
The candidate shall understand how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

   4 **Advanced Proficient**: Designs and implements developmentally appropriate and challenging learning experiences. Interacts with learners with sensitivity to developmental stages, cultural, linguistic, social, and academic differences.
   
   3 **Proficient**: Identifies and plans learning experiences based on students’ developmental stages. Respectfully interacts with learners and is sensitive to their needs.
   
   2 **Novice**: Implements learning experiences with limited competence that requires further guidance from either the cooperating teacher and/or supervisor. Needs more guidance on interacting with learners on a developmental level.
   
   1 **Emergent**: Exhibits difficulty in implementing learning experiences and/or interacting with learners.

   N/O - Not Observed

**Additional “Learner Development” Comments:**

*(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as to why the candidate was unable to meet the standard at this time and how the standard might be addressed for future observations.)*

2. **Learning Differences**
The candidate uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

   4 **Advanced Proficient**: Applies and adapts instruction that engages the learners in ways that complement their learning styles. Modifies instruction to reflect the diverse cultures and communities of learners.
   
   3 **Proficient**: Designs and delivers instruction based on the needs of each student. Modifications to lessons are made for students with special needs, ELLs, and different learning styles.
   
   2 **Novice**: Develops and delivers instruction to address the needs of learners on an inconsistent basis.
   
   1 **Emergent**: Prepares and delivers instruction oriented towards the whole class.

   N/O - Not Observed

**Additional “Learning Differences” Comments:**

*(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as to why the candidate was unable to meet the standard at this time and how the standard might be addressed for future observations.)*
3. Learning Environment
The candidate works with others (learners, families and colleagues) to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

4 Advanced Proficient: Creates an environment that encourages and supports all learners. Consistently implements effective management techniques and fosters interactions which maintain a respectful, polite, and culturally sensitive learning environment.

3 Proficient: Creates an environment that encourages and supports most learners. Demonstrates warmth, caring and sensitivity. Implements management techniques and facilitates interactions that are conducive to an effective learning environment.

2 Novice: Begins to create an environment that encourages and supports all learners. Management techniques and interactions are generally appropriate.

1 Emergent: Demonstrates limited classroom management techniques and interactions conducive to an effective learning environment.

N/O - Not Observed

Additional “Learning Environment” Comments:
(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as to why the candidate was unable to meet the standard at this time and how the standard might be addressed for future observations.)

4. Content Knowledge
The candidate understands the central concepts, tools of inquiry, and structures of the discipline/s they teach and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content.

4 Advanced Proficient: Delivers instruction that demonstrates depth and breadth of the content knowledge, theory, and principles of the discipline. Incorporates appropriate materials and consistently makes learning experiences meaningful and relevant which leads to mastery of subject matter.

3 Proficient: Delivers instruction based on content knowledge, theory, and principles of the discipline allowing meaningful learning and mastery of subject matter.

2 Novice: Delivers instruction based on superficial content knowledge, theory and principles of the discipline resulting in inconsistent learning of subject matter.

1 Emergent: Delivers instruction based on insufficient content knowledge, theory, and principles of the discipline.

N/O - Not Observed

Additional “Content Knowledge” Comments:
(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as to why the candidate was unable to meet the standard at this time and how the standard might be addressed for future observations.)
5. Application of Content
The candidate understands how to connect concepts and use different perspectives to engage learners in critical
thinking and problem solving related to authentic local and global issues.

4 **Advanced Proficient:** Asks application, analysis, synthesis, and evaluation questions. Instruction includes
making connections to concepts using many perspectives to engage all learners in critical and divergent
thinking. Shows a thorough understanding of the concepts needed to engage learners and extend learners’
abilities to solve real world problems.

3 **Proficient:** Asks application, analysis, and synthesis questions. Instruction includes making connections to
concepts and using a variety of perspectives to engage all learners in critical and divergent thinking. Shows
a complete and correct understanding of the concepts needed in order to engage learners in making
connections to solve real world problems.

2 **Novice:** Asks recall and identification questions. Instruction includes some concept connections. Questions
engage some learners in critical or divergent thinking. Shows an incomplete understanding of the concepts
needed to engage learners in making connections to solve real world problems.

1 **Emergent:** Asks factual questions and instruction does not include concept connections. Questions do not
engage learners in critical thinking. Shows lack of understanding of the concepts needed in order to engage
learners in making connections to solve real world problems.

**N/O - Not Observed**

Additional “Application of Content” Comments:
(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as
to why the candidate was unable to meet the standard at this time and how the standard might be addressed for
future observations.)

6. Assessment
The candidate understands and uses multiple methods of assessment to engage learners in their own growth, to
monitor learner progress, and to guide the teacher’s and learner’s decision making.

4 **Advanced Proficient:** Uses a variety of formative and summative assessments. Provides differentiated
assessments to meet individual student needs. Assessment includes specific detail and feedback. Data
includes multiple measures and is used to make decisions about the student’s learning and to inform the
teacher’s instruction.

3 **Proficient:** Uses multiple formative and summative assessments. Engages most learners in the assessment
process. Assessment includes targeted feedback to students. Data is used to guide the students’ and
teacher’s decision making.

2 **Novice:** Uses a few or the same methods of assessment and engages some learners in the process.
Assessment includes minimal feedback to students. Some data is used to guide the students’ and teacher’s
decision making.

1 **Emergent:** Uses one method or inappropriate methods of assessment that do not engage learners in the
process. Assessment does not include feedback to students. There is no attempt to use data driven decision
making.

**N/O - Not Observed**
7. Planning for Instruction
The candidate plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

4 **Advanced Proficient**: Plans instruction that shows complete and correct understanding of rigorous learning goals for all students. Uses knowledge of curriculum, pedagogy, community context, and all learners to plan instruction.

3 **Proficient**: Plans instruction that shows an understanding of the learning goals for all students. Uses knowledge of curriculum, pedagogy, community context, and learners to plan instruction.

2 **Novice**: Plans instruction that meets the learning goals for some students. Uses some knowledge of curriculum, pedagogy, or community context to plan instruction and takes into consideration the knowledge of some of the learners to plan instruction.

1 **Emergent**: Plans instruction that does not meet the learning goals for students. Uses minimal knowledge of curriculum, pedagogy, or community context to plan instruction and may not take into consideration the knowledge of learners.

N/O - Not Observed

Additional “Planning for Instruction” Comments:
(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as to why the candidate was unable to meet the standard at this time and how the standard might be addressed for future observations.)

8. Instructional Strategies
The candidate understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

4 **Advanced Proficient**: Uses rich and varied instructional strategies that encourage learners to develop a deep understanding of content. Strategies build and extend the learners’ understanding of content to make multiple connections and apply knowledge.

3 **Proficient**: Uses a variety of instructional strategies that encourage learners to develop an understanding of content. Strategies build the learners’ skills to make connections and apply knowledge.

2 **Novice**: Uses instructional strategies that encourage learners to develop content knowledge. Strategies begin to build learners’ skills to make connections and apply knowledge.

1 **Emergent**: Uses instructional strategies to present content. Strategies may not build learners’ skills to make connections and apply knowledge.
9. Professional Learning and Ethical Practice
The candidate engages in ongoing professional learning and uses evidence to continually evaluate their practice, particularly the effects of their choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

4 Advanced Proficient: Candidate participates in ongoing professional learning which is consistently demonstrated during the lesson. Candidate uses evidence-based teaching strategies and reflection to improve their practice. Candidate modifies instruction based on feedback/results and plans lessons that nurture metacognitive skills in each learner.

3 Proficient: Candidate participates in ongoing professional learning which is demonstrated during the lesson. Uses evidence-based teaching strategies to teach students and reflects on their own practice. Candidate modifies instruction based on feedback/results and plans lessons accordingly to meet the needs of each learner.

2 Novice: Candidate participates in ongoing professional learning which is sometimes demonstrated during the lesson. Teaching and learning remains basically the same without appropriate modifications to meet the needs of each learner.

1 Emergent: Candidate may participate in ongoing professional learning which may be demonstrated during the lesson. Candidate does not modify or adjust instruction based on feedback to meet the needs of each learner.

N/O - Not Observed

10. Leadership and Collaboration
The candidate seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth and to advance the profession.

4 Advanced Proficient: Provides evidence of many contributions to the school and district. Collaborates with colleagues, parents, and other school professionals. Participates in activities with parents and community, professional in-service, and assumes leadership roles in various capacities, as appropriate. Seeks out opportunities to assume additional responsibilities in the school community or the profession.
3 Proficient: Provides evidence of contributing to the school and district. Collaborates with colleagues, parents, and other school professionals. Participates in activities with parents and community, professional in-service, and assumes leadership roles, as appropriate.

2 Novice: Provides some evidence of contributions to the school and district. Communicates with colleagues, parents, and other school professionals. Sometimes participates in activities with parents and community. Makes minimal attempt to assume leadership roles within the school.

1 Emergent: Provides no evidence of contributing to the school and or district. Communicates periodically with colleagues, parents, and other school professionals. Makes little or no attempt to participate in activities with parents and community. Makes no attempt to assume leadership roles within the school.

N/O - Not Observed

Additional “Leadership & Collaboration” Comments:
(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as to why the candidate was unable to meet the standard at this time and how the standard might be addressed for future observations.)

11. Professional Responsibility
The candidate acts in accordance with legal and ethical responsibilities and uses integrity and fairness to promote the success of all students.

4 Advanced Proficient: Professional interactions and practices are characterized by fairness, integrity, respect, and confidentiality. Models exemplary professional behavior by following the policies of the school, professional teaching standards, and applies the Code of Ethics to promote the success of all students.

3 Proficient: Professional interactions and practices are characterized by fairness, integrity, respect, and confidentiality. Abides by the policies of the school, professional teaching standards, and Code of Ethics to promote the success of all students.

2 Novice: Professional interactions and some practices may be characterized by fairness, integrity, respect, or confidentiality. Complies with the policies of the school, professional teaching standards, and Code of Ethics to promote the success of students.

1 Emergent: Professional interactions and practices do not always demonstrate integrity and fairness towards all students. May not consistently follow the school’s policies, regulations or timelines.

N/O - Not Observed

Additional “Professional Responsibility” Comments:
(Please discuss how the candidate addressed this standard. If not observed, please provide a written explanation as to why the candidate was unable to meet the standard at this time and how the standard might be addressed for future observations.)

Evaluation of Clinical Interns During Clinical Practice
Instructions and Overview

Introduction

This performance-based observational instrument, the Clinical Competency Inventory, has been designed to provide actionable feedback on the progress of individual teacher candidates (also referred to as clinical interns) who are completing their Clinical Practice (student teaching) internship. The CCI is a standards-based assessment rubric that measures key competencies aligned to the 2013 InTASC standards, 2014 New Jersey Professional Standards for Teachers, and the current Educative Teacher Performance Assessment (edTPA) rubrics that are required of all teacher candidates prior to being recommended for certification. The CCI specifies the defining set of competencies that preservice teachers must demonstrate before being recommended for certification in the State of New Jersey.

Some competencies may not be observable and usually start with the phrase, “Provides evidence of.” It is expected that the candidate will bring evidence/artifacts of these competencies to the final evaluation conference.

The CCI was designed to formally assess competencies and provide feedback to the clinical intern during Clinical Practice II (CP2; full-time student teaching). It is to be used as a formative assessment at the midpoint of CP2 (February), as well as a summative assessment at the end of CP2 (April/May). It should be used in conjunction with the Observation and Conference Report (OCR) that is aligned with the CCI. The OCR focuses on the quality of individual lessons being observed; whereas the CCI is meant to be a cumulative assessment of competencies that the clinical supervisor and cooperating teacher have observed over the course of the internship. The CCI should be introduced at the beginning of Clinical Practice to guide the development of the clinical intern and to provide feedback on the candidate’s strengths and areas in need of improvement.

The procedures for using the CCI are as follows:

1) At the start of the year-long Clinical Practice internship, the clinical intern conducts an initial pre-assessment/self-evaluation by completing the CCI. This will help guide the intern’s goals and progress.
2) At the first visit of Clinical Practice I, the clinical supervisor reviews the Observation and Conference Report (OCR) and Clinical Competency Inventory (CCI) with the clinical intern and cooperating teacher. The OCR is used to document and provide feedback to the intern on individual lessons throughout Clinical Practice. The CCI is used as an evaluative tool during Clinical Practice II.
3) During the second or third month of Clinical Practice I (October/November), the clinical supervisor and cooperating teacher observe the clinical intern and complete the OCR independently. They discuss with the intern what they observed along with each of the 11 standards, as well as specify areas of strength and areas for improvement.
4) During Clinical Practice II, the clinical supervisor and cooperating teacher observe the clinical intern and complete the OCR independently. They discuss with the intern what they observed along with each of the 11 standards, as well as specify areas of strength and areas for improvement.
5) At the midpoint of CP2 (mid-/late February), the clinical supervisor and cooperating teacher complete the CCI independently. They hold a midpoint conference with the clinical intern to discuss their CCI ratings and comments.
6) At the completion of the internship (late April/early May), the clinical supervisor and cooperating teacher complete the CCI independently. They hold a final conference with the clinical intern to discuss their final CCI ratings and comments.
At the very end of Clinical Practice II, the clinical intern conducts a final post-assessment/self-evaluation by completing the CCI. This will help guide the intern’s future goals and progress.

Scoring

The following rating scale will be used to score each clinical intern. For the **formative/midpoint CCI evaluation**, the **required benchmark** for a clinical intern to proceed with the second half of Clinical Practice II without any required interventions/additional supports is **2.50**. For the **summative/final CCI evaluation**, the **required benchmark** for a clinical intern to be recommended for certification is **3.00**.

It is *not* expected that the intern earns ratings of proficiency (3.0) or greater prior to Clinical Practice II.

4: **Advanced Proficient (Exemplary Practice)** – The clinical intern demonstrates exemplary practice in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.  
*Recommended point value: 3.5 - 4.0.*

3: **Proficient (Basic Competence)** – The clinical intern demonstrates basic competence in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.  
*Recommended point value: 2.75 - 3.4.*

2: **Novice (Limited Competence)** – The clinical intern continues to need assistance in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.  
*Recommended point value: 1.5 - 2.74.*

1: **Emergent (Exhibits Difficulty)** – The clinical intern exhibits difficulty in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.  
*Recommended point value: 0 - 1.4.*

**Not Observed** – This **CANNOT** be used for the summative/final evaluation. If you did not observe a specific indicator in the classroom, please obtain additional evidence from the clinical intern demonstrating competency in that area. If you have a question or reservation, please insert a comment explaining your concerns. If you are observing a K-3 classroom, obtain approval to skip certain competencies and leave them blank.

For the **Final Assessment**, please rate all 34 indicators if you can. Use the following scale to assess the candidate (this scale will not be accurate if you skip any item): Advanced Proficient (4) = 136 points; Proficient (3) = 102 points; Novice (2) = 68 points; Emergent (1) = 34 points.
IF ALL INDICATORS ARE USED, A CLINICAL INTERN NEEDS AT LEAST 102 POINTS (3.00 AVERAGE) TO BE RECOMMENDED FOR CERTIFICATION. DO NOT COUNT ANY ITEMS YOU DID NOT OBSERVE.

*If you did not score all 34 indicators, please calculate the overall score by adding up all points earned and dividing the total points earned by the number of indicators actually scored (total points earned ÷ # of indicators you rated).*

Schedule for administering the CCI:
- **Early September:** Clinical intern completes an initial pre-assessment/self-evaluation CCI;
- **Mid-/Late February:** Supervisor and cooperating teacher complete separate formative/midpoint CCIs; and
- **Late April/Early May:** Intern, supervisor, and cooperating teacher complete separate summative/final CCIs.

Standard 7 (Planning for Instruction) Comments:
Standard 8: Instructional Strategies

The clinical intern understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

8.1 The clinical intern uses effective questions to facilitate deep understanding of content (i.e., higher order thinking).

**Standard 11 (Professional Responsibility) Comments:**
Appendix L: Fieldwork/Clinical Experience Professional Dress Guidelines

The best way to describe fieldwork attire is “Business Casual.” In a K-12 setting, you will need to dress in a way that encourages students, administrators, and peers to see you as a professional educator. Proper attire helps students and their parents to perceive you as a mature role model.

1. What should I wear for fieldwork in all of my teacher education courses?

Dressing appropriately and professionally is expected. Dress for the teaching position that you hope to obtain.

Staff members may wear knee-length dresses and skirts, pants suits, dress trousers (no jeans), blouses, sweaters, suits, and dress shirts with a tie and/or jacket. Shirts should be tucked in.

Further, some districts have specific dress policies for teachers. It is important to make sure that you research whether your district/school has one. For example, some place restrictions on sandals without backs. Also, look around and see what other professionals are wearing.

2. What are some further considerations for selecting professional attire?

A professional appearance helps others to see you as a future teacher as you begin to craft your own identity as an educator. In general, clothing should be modest and conservative.

Additional helpful hints: No tee shirts, jeans, flip flops, slides, open-toed shoes, sneakers, sweatshirts or sweatpants, exercise clothing, athletic attire, shorts, leggings, caps, sunglasses, sleeveless shirts, spaghetti strap tops or midriff-baring tops. In addition, apparel should not be stained, sloppy, sheer, brief, low cut, very short or very tight.

In order to minimize the necessity of an extensive wardrobe, consider khakis or black pants, which can be paired with a variety of tops.

One can wear a camisole top under a variety of blouses, as needed.

3. Are body piercings and tattoos part of the dress code policy?

It is your responsibility to assess the appropriateness within the fieldwork/clinical setting with regards to any tattoos and/or body piercings and determine if they need to be covered or removed while in the school/district.

Appendix N: Clinical Practice Checklist for Clinical Interns

Please note that this checklist is to serve as a general guide for the clinical intern, cooperating teacher, and clinical supervisor. All parties should use their collective discretion to modify activities as a result of the intern’s readiness, scheduling conflicts, and extenuating circumstances. Before any major deviations from the recommended activity schedule occur, please contact Dr. Pestrong-Engler, Teacher Education Program Assistant, for further guidance.

**Clinical Practice I** (Part-time Student Teaching Semester; CP1)

**Late August through September**

- Attend Teacher Education Clinical Practice Orientation; re/watch the recording, if necessary
- Read the Clinical Practice section of the Teacher Education Handbook, including your assigned school district’s student and teacher handbooks, policy manuals, website, newsletters, etc.
- With your cooperating teacher, establish the best means of communication, as well as a regular schedule for two full school days per week of Clinical Practice I; record days you complete Clinical Practice each week in the Excel spreadsheet provided or your own personal tracker/calendar
- Abide by Ramapo College’s Academic Calendar; communicate the demands of your course and work schedules throughout the semester, as needed
- Attend your school district’s new teacher orientation and all possible back-to-school events, PD, and in-service days that are required of new teachers and/or your cooperating teacher
- Assist your cooperating teacher with setting up their classroom (physical and/or virtual) and any other back-to-school preparations necessary; tour your school building, if possible, and introduce yourself to teachers, staff, and administrators
- Obtain copies of curriculum guides, textbooks, and other resources your cooperating teacher and students utilize (hard copy and/or digital)
- Within the first two weeks of Clinical Practice I, complete a pre-assessment/self-evaluation of your current teaching competencies using the Clinical Competency Inventory (CCI) Google Form; this should guide your expectations, goals, and progress throughout Clinical Practice
- Observe all classes taught by your cooperating teacher and assist with simple tasks, as directed; observe other teachers, when possible
- Schedule your clinical supervisor’s first two observations (1 informal, 1 formal) to take place in October
- Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or Dr. Pestrong-Engler

**October**

- Continue to observe your cooperating teacher
- Assist with attendance, grading, creation of instructional materials, etc.
Work with small groups or individual students who require remediation and/or enrichment. Study your cooperating teacher’s unit plans and daily lesson plans. Begin to teach mini-lessons followed by critiques from your cooperating teacher. Prepare lesson plans for upcoming lessons and observations; lessons observed by your clinical supervisor and/or cooperating teacher require a lesson plan; email these lesson plans to them in advance of your observations. Where applicable, assume responsibility of some daily activities, such as opening and closing exercises, etc.

Complete your first/only informal observation by your clinical supervisor during the first half of October; establish goals/next steps for your development during the post-observation conference.

Complete your first formal observation by your clinical supervisor during the second half of October; establish goals/next steps for your development during the post-observation conference; establish dates for your second/final formal observation of Clinical Practice I (Nov.). Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or Dr. Pestrong-Engler.

**November**

Continue to observe and assist your cooperating teacher, as directed. Continue to work with small groups and individual students. Continue to study your cooperating teacher’s unit plans and daily lesson plans. Continue to teach mini-lessons and implement your cooperating teacher’s and clinical supervisor’s feedback.

Continue to prepare lesson plans for upcoming lessons and observations. Complete your second formal observation by your clinical supervisor and first formal co-observation by your cooperating teacher; establish goals/next steps for your development during the post-observation conference.

Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or Dr. Pestrong-Engler.

**Early to mid-December**

Complete your second formal observation by your clinical supervisor and first formal co-observation by your cooperating teacher, if not already completed. Ensure that you have completed a minimum of 22 full school days of Clinical Practice I by the end of the first full week of December; make arrangements with your cooperating teacher to attend more days, if needed.

With your cooperating teacher and clinical supervisor, establish goals and expectations for Clinical Practice II; while doing so, consider your performance throughout CP1, as well as your CCI pre-assessment/self-evaluation. Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or Dr. Pestrong-Engler.
Clinical Practice II (Full-time Student Teaching Semester; CP2)

January

______ Abide by your school district’s calendar as if you were an employee of the school district; record days you complete Clinical Practice each week in the Excel spreadsheet provided or your own personal tracker/calendar

______ Attend all Clinical Practice Seminars

______ Continue to observe your cooperating teacher and assist with regular routines

______ Work with small groups or individual students who require remediation and/or enrichment

______ Study your cooperating teacher’s unit plans and daily lesson plans

______ Teach mini-lessons followed by critiques from your cooperating teacher; implement feedback in future lessons

______ Prepare lesson plans for upcoming lessons and observations; lessons formally observed by your clinical supervisor and/or cooperating teacher require a lesson plan; email these lesson plans to them in advance of your observations

______ Complete your first formal observation by your clinical supervisor; establish goals/next steps for your continued development during post-observation conference

______ Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or Dr. Pestrong-Engler

February

______ Accept a few responsibilities related to instructional activities and progress to teaching one (1) to two (2) classes/subject areas

______ Participate in regular conferences with your cooperating teacher and clinical supervisor regarding teaching techniques, classroom management, content knowledge, etc.; address questions and concerns on a weekly basis

______ Complete your second and third formal observations by your clinical supervisor and first formal co-observation by your cooperating teacher; establish goals/next steps for your continued development during post-observation conferences

______ Your clinical supervisor and cooperating teacher will complete and submit your formative evaluations (midpoint Clinical Competency Inventories) and hold a conference with you in late February

______ Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or Dr. Pestrong-Engler

March

______ Accept many responsibilities related to instructional activities and progress to teaching two (2) to three (3) classes/subject areas

______ Participate in regular conferences with your cooperating teacher and clinical supervisor regarding teaching techniques, classroom management, content knowledge, etc.; address questions and concerns on a weekly basis

______ Complete your fourth and fifth observations by your clinical supervisor and first formal co-observation by your cooperating teacher, if not already completed; establish goals/next steps for your continued development during post-observation conferences
Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or Dr. Pestrong-Engler

April to early May

Accept most responsibilities related to instructional activities and progress to teaching three (3) to four (4) classes/subject areas

Participate in regular conferences with your cooperating teacher and clinical supervisor regarding performance, progress, and implementation of feedback

Complete your sixth/final observation by your clinical supervisor; establish goals/next steps as you wrap up Clinical Practice

Ensure that you have completed a minimum of 60 full school days of Clinical Practice II by the last day of April/first few days of May; make arrangements with your cooperating teacher to attend more days, if needed

Gradually start returning responsibilities back to your cooperating teacher

During your final two weeks of Clinical Practice, observe other classes and teachers, as possible, and return all school materials

During the last two weeks of Clinical Practice II, complete a post-assessment/self-evaluation of your current teaching competencies using the Clinical Competency Inventory (CCI) Google Form; this should guide your goals for your first year of teaching

Your clinical supervisor and cooperating teacher will complete and submit your summative evaluations (final Clinical Competency Inventories) and hold a conference with you in late April/early May

With your cooperating teacher and clinical supervisor, establish goals for your first year of teaching; while doing so, consider your performance throughout Clinical Practice, as well as all of your observations and evaluations

Communicate questions and concerns to your cooperating teacher, clinical supervisor, and/or the Teacher Education Program Assistant

Complete the Teacher Education Exit Survey emailed to you eliciting feedback on your overall TE program experience
